Address: Deurningerstraat 120, 7557 HK Hengelo

Communication Science student at the University of Twente with a multidisciplinary background in design, digital media, and engineering. Experienced in social media content, visual design, UX research, and data-driven communication. Skilled in Figma, Adobe Creative Suite, and AI-assisted workflows, with a track record of turning ideas into measurable results across international, multilingual teams.

EDUCATION

National Taipei University of Technology | Taipei, Taiwan

Sep 2018 – Jul 2023

- Associate Bachelor in Intelligent Automation Engineering
- Relevant Coursework: Python, Machine Learning

Minerva Art Academy | Groningen, Netherlands

Sep 2023 – Jul 2024

- BSc Design
- Relevant Coursework: Multimedia Design, Web Design, Time-based Design, Product Design

University of Twente | Enschede, Netherlands

Sep 2024 – Present

- BSc Communication Science
- Relevant Coursework: Infographic design, Qualitative/Quantitative Research, External Communication

PROFESSIONAL EXPERIENCE

TORIII Tech Corporation | Community Moderator & Content Designer | Taipei, Taiwan

Feb 2022 – Jul 2022

- Managed an international community of **2612** members and increased social media engagement by **23%** through visual storytelling.

All Ring Tech Corporation | Manufacturing Department Intern | Kaohsiung, Taiwan

Jul 2021 – Sep 2021

- Maintained and assembled automated equipment in a high-tech manufacturing environment.
- Developed a practical understanding of industrial workflows and engineering documentation.

ACADEMIC EXPERIENCE

Multimedia Production Project | National Taipei University of Technology

- Produced and edited videos and podcasts to simplify complex educational systems for the public.
- Analyzed pros and cons of various systems to ensure accurate and engaging storytelling.

UX Design & Formative Evaluation (Brick App) | University of Twente

- Conducted usability testing using the concurrent think-aloud method and semi-structured interviews to optimize app navigation.
- Led a data-driven UX evaluation by analyzing **141** qualitative segments, resulting in **14** specific design recommendations for improved navigation.

Quantitative Research on Virtual Worlds | University of Twente

- Utilized R script to perform factor analysis and linear regression on engagement and mental wellbeing data (**n=155**).
- Translated complex statistical findings into an introductory video and a strategic policy proposal to effectively communicate research outcomes to a broader audience.

SKILLS

Research & Analysis: Qualitative/quantitative Analysis, R Scripting, and UX Evaluation, Strategic Communication.

Workflow Management: SharePoint, Notion.

Multimedia & Design: Figma(Expert), CapCut, SharePoint, UI/UX Design, and Adobe Creative Suite (Illustrator, Photoshop, XD).

Technical & AI: Basic Python, Machine Learning fundamentals, and Generative AI tools (Microsoft 365 Copilot, Claude).

Engineering Context: Intelligent Automation Engineering, 3D Model Design (CAD)

Languages: English (Fluent, TOEFL 89), Dutch (Basic, B1), Mandarin (Native), Japanese (Basic, JLPT N5).
